Docket No. 98N-1265

Food and Drug Administration APR 13 10:50

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: It is only through the ability to purchase compounded medications through Madison Pharmacies that I was able to solve menopausal problems. The local doctors wanted to use the one size fits all prescriptions and made me very ill. I see no purpose in limiting the sale of prescriptions from any source. I also get a much better price than from local pharmacies. These rules are only going to make health care more difficult and it is already deteriorating into the basement of 3rd world countries with some of the problems of dealing with HMOs. Those of us with private health insurance get treated like some welfare patient. We need a choice!!!!
